FALCONIO SEEMS CERTAIN TO SUCCEED MARTINELLI. WAS NEVER STRONGER

THE MOST REVEREND DIOMEDE FALCONIO, Who seems likely to be the successor of Cardinal Martinelli.

New York, Oct. 21.-There can no longer | the possible truth that it almost calls for be any doubt that the most Reverend Diomede Falconio will succeed Cardinal Martinelli as apostolic delegate to the United States. The dispatch from London yesterday, quoting the Rome correspondent of the Dafly Chronicle, is practically confirmed in a letter received here to-day from Rome from an exceptionally well informed source.

The letter says in part: "I have received intelligence that it is be lieved in the highest quarters at Rome that his Eminence, Cardinal Martinelli, will re-turn at an early date in order to receive the full honors of his rank, and that he will be succeeded as delegate apostolic by Mgr. Falconio, who is at present delegate apostolic at Ottawa. This belief prevails in quarters so high and so near, for certain reasons, to

"It is stated as a fact, the appointment is mentioned as one already made. It is, therefore, quite distinct from the rumor which has been current for a long time that Mgr. Falconto would be the successor to Cardinal Martinelli, and again from the rumors a week old, about the holding of the consistory at an early date. But, being distinct from these reports, it seems to receive confirmation from them. The official announcement will not be made until some time after the appointment has been com-municated formally to the persons con-

Mgr. Falconio came to the United States in 1861 and became an American citizen in 1872 while teaching in the Franciscan Col-lege at Allegany, N. Y. He was born in 1842 in the Province of Abruzzo, Italy.

MUST PAY LICENSE.

Collector Whyte Sends Out Warnings to Thirty Who Have Not Complied With the Law.

Thirty business men, known as "financial rokers," whose names are not in the cense books, have been notified by License Collector Whyte to appear at his office at once and take out license. Each of the thirty financial brokers will be requested to pay \$88 every six months as license tax. By this one stroke Mr. Whyte will increase

the city's revenue \$5,280 per year. The License Collector also has plans to increase municipal revenue by increasing the taxes of certain classes of business to the rates prescribed by ordinance. He has bserved that several hundred business men are conducting establishments by virtue of ordinary "merchants' license," whereas they should be paying the larger rates, according to their classes of business, de-manded by law.

On the other hand, reductions will be ef-

fected for some merchants. His purpose is to equalize the rates, in one manner by in to equalize the rates, in one manner by in-forcing ordinances and in another manner by corrective legislation. In fact, Mr. Whyte proposes to rectify the whole license system. Interesting developments are in-dicated by the linvestigations and compari-sons being made by the License Collector. Merchants' licenses will not be issued to financial brokers, as the Municipal Code particularly defines, "a financial agent or broker" in section 2020. Assistants in the broker" in section 2020. Assistants in the Collector's office, anticipating the reports of the police as to the names of men and firms in business, are reviewing the Municipal Code and arranging statements to show the various rates of license tax. This work is part of Mr. Whyte's comprehensive plan for readjustment of the license system.

Among the new licenses entered in the books, is the West End Club. The tax for exhibitions is \$25 per month, and this rate is being paid for conducting the West End Collseum. Managers of the Horse Show paid the same tax this year and previously, spiritualists and fortune tellers have also been summoned to take out licenses, or to show reasons why they should not be taxed.

NATION'S TREASURY

So Declares United States Treasurer Ellis H. Roberts in His Annual Report.

REVENUES HIGHEST RECORDED

Calls Attention to Noteworthy Changes in Paper Currency and Healthful Growth of Gold in Treasury.

Washington, Oct. 31.-Ellis H. Roberts, Treasurer of the United States, in his report of the transactions of his office during the last fiscal year, says that the Treas ury was never stronger than at the close of that period. The operations, which were of the first order, both in variety and magnitude, resulted in noteworthy changes in the paper currency, as well as a steady and

healthful growth of gold in the Treasury and in the general stock. The net ordinary revenues for the year The net ordinary revenues for the year were \$55,685,287, an increase of \$20,444.485 over those of 1900, which were the next highest recorded. The increase came from each of the heads of resource, but chiefly from internal revenue. On the side of the expenditures, the total of \$509,987,353 has been exceeded only four times, in 1862, 1894, 1898 and 1899. Surplus of \$77,717,984.

The surplus of \$77,717.984 was slightly un-der two million dollars less than in 1992. Inclusive of the transactions affecting the public debt, the aggregate receipts were \$1. 146,489,306, and the aggregate disbursement

145,489,305, and the aggregate disbursements \$1.077,052,052.
For the first quarter of 1801, although the act of March 2, 1800, was operative, reducing the revenue, the receipts were only \$2,417,890 less than for the like period of 1800, while the expenditures for the same months were reduced by almost exactly \$20,000,000.

The reserve of \$150,000,000 in gold, required by the financial law of 1900, has been kept intact by the daily substitution of gold coin and bullion out of the general fund for the notes redeemed. These redemptions, which amounted to \$24,67,588 for the year, do not indicate any preference for gold overpaper, but simply the desire for large denominations, which are most conveniently supplied in gold certificates.

Increase in National Bank Deposits. Increase in National Bank Deposits.

After making certain deductions for items not available in general payments, the free cash was \$16,311,664, which was distributed among the ten officers of the Treasury and the twelve officers of the mint, including \$191,416,373 in the national bank depositaries. In the first quarter of 1902 the deposits in rational banks increased \$7,007,885, while the available cash balance was reduced by \$5,913,244.

available cash balance was reduced by \$6,-93.244.

The issue of 2 per cent consols of 1920 in exchange for the loans maturing in 1904, 1907 and 1908, was continued up to December 31, 1909, by which time the total amount of the principal converted reached \$46,990,750.

These transactions involved the payment of an aggregate sum of \$45,400,607 in money.

On April 1 was begun under the order of the Secretary of the Treasury the purchase of bonds of the same loans at a price computed to earn 1.755 per cent. Up to June 20 the purchases amounted to \$44,250,520 of principal, at a total cost of \$16,257,928. By this process, and under a notice of the Secretary of the Treasury, September 1, inviting offers to sell the Government \$20,000,000 of bonds, including the loan of 1925, purchases were carried up to \$40,477,300, at an aggregate cost of \$43,438,485.

Circulation Per Capita.

Of the funded loan of 1891, on which interest ceased August 18, 1990, bonds of the face value of \$21,706,250 were redeemed during the year, leaving a balance of \$27,600 outstanding, and in the new fiscal year payments reduced the balance to \$12,500. Although the aggregate of the debt has been slightly increased, the swelling of the figures was due to the enlarged issue of gold and silver certificates. On October 1 all but \$46,134,350 of the new 2 per cent bonds were held by the Treasury for national banks as security for circulating notes and public deposits.

tory of the country, and more than was ever held under single control elsewhere in the world, except once for a few months. The receipts in New York for customs are nearly all in gold certificates, and bal-ances between the clearing-house and Sub-treasury are settled almost entirely in the Same medium. Same medium.

The redemptions of national bank notes were the heaviest in twenty-two years, amounting to \$147,486,577, an increase of \$56,550 over 1909.

Shipments of Silver Coins Shipments of Silver Coins.

The shipments of standard silver dollars from the Treasury amount for the year to \$28,338,519, and the amount outstanding in December was \$78,182,326, but this was reduced nearly \$18,090,000 by July in consequence of the return of the coins to Washington. The shipments were 5.06 per cent greater in 1901 than in 1900, and there was an increase in the first quarter of 1902 over that of 1901.

greater in 1801 than in 1800, and there was an increase in the first quarter of 1802 over that of 1801.

Standard dollars were given for gold in New Orleans to help move the crops to the amount of \$2.250,000, and for deposits in New York they were shipped to Southern points for \$2.555,500. The standard dollars presented at the Treasury in Washington for exchange were 31 per cent in excess of such transactions in the priceeding year.

Since July 1, 1900, the principal of the indebtedness of the Central Pacific Railway Company has been reduced in the sum of 4,739,574 by cash payments and transportation furnished. The balance of the principal remaining unpaid at the date of the last transaction was \$33,95,502 secured by first mortgage bonds for \$33,77,000 as collateral.

The Republic Bureau,
14th St. and Pennsylvania Ave.
Washington, Oct. 31.—Postmaster Baum hoff, who is here on business with the department, finished his work to-day, and will return home to-morrow. Mr. Baumhoff called on President Roosevelt this afternoon and was cordially received. The President referred to the arrangement by which Major Harlow retires from the Civil Service Commission and said he desired it carried

in November and will have a good posi-tion. What it will be is not yet decided

definitely.

To-day Postmaster Baumhoff secured the adoption of a plan by which postal service will be installed at once in the World's Fair Grounds. This will be put into operation as soon as Mr. Baumhoff gets home, Fair Grounds. This will be put into operation as soon as Mr. Baumhoff gets home, and it will be of great benefit to the men at work in and about the Fair grounds. The Clayton office will not be continued, as reported in other St. Louis papers. It will be abolished, together with Hillside, Jehnings. Maplewood, Old Orchard, Shrewsbury, Tuxedo, Webster Groves, Wellston and Robring. In lieu of these offices, substations of the St. Louis Post Office will be established. The employes will not be dismissed, but will be at once put under the civil service rules, and their compensation will be unchanged. They will be subordinates of the St. Louis Postmaster, instead of independent Postmasters, but otherwise their standing will not be disturbed. These changes will take effect December I.

Mr. Baumhoff secured an allowance for ten additional permanent clerks in the St. Louis Post Office, to begin work November 1. Additional allowances are made for numerous interior improvements of the central post office, and a number of promotions have been ordered, to take effect November I. Ten additional carriers for county delivery are authorized, and the office is promised an automobile for experimental work in the near future.

ANOTHER FIGHT ON SAMAR ISLAND. Marila, Oct. II.—Advices just received here from Catbalogan, Island of Samar, say that twelve men of Company G of the Ninth Infantry, under command of Sageant Willford, who had been sent from Bassy to San Antonio to investigate and report in regard to the number of bolomen in the vicinity, were attacked by 140 insurgents, who rushed on them with great violence, killing two of the soldiers and wounding two others.

Willford remained cool, and the survivors say he acted splendidly. Fourteen of the insurgents were killed. Captain Bookmiller of Company G recommends Willford for a medal of honor, and Privates Swanton and Vero for certificates of merit.
